Business Continuity Plan/Disaster Recovery Training for Not for Profit Organizations (NFPO's)

About this training

This training is designed to equip your team with fundamental knowledge and skills in disaster recovery. This course will yours equip your team to develop a BCP/DRP that is well detailed effective and in line with ISO 22301 standards.

Who is the target audience?

a. Employees and top management of NFPO's who want to protect the business from a disaster, as well as recover from one.
b. This course is being offered at a basic level and is suitable for all people whether they have knowledge in this area or not.

Learning Outcomes

- You will learn how to proactively mitigate risks associated with NFPO's and come up with a solid plan of action to take in case the said risks occur.
- Take advantage of the calm before the storm by creating Crisis Management Structures able to efficiently respond to a crisis event.
- Empower your NFPO to deal with the first stages of a crisis by learning to develop a robust Incident Management Plan.
- Learn about what makes a business continuity plan and a disaster recovery plan.
- Learn about risks, threats, incidents and business impact analysis.
- Link your BCP to strategy.
